Hi Amber and Bruce,

I am interested in applying for the open P&Z position and have included my bio and interest below for your reference. Please let me know if you have any questions.

I am the Senior Environmental Compliance Coordinator at Wharf Mine and have been working at Wharf since 2015. I am responsible for environmental reporting to SD DENR and the EPA in the areas of air quality, ground water quality, and waste management. I also track, update, and apply for Wharf's permit renewals (ground water discharge, rubble site, Title V air quality, mine permit). In addition, I oversee Wharf's accreditation with the International Cyanide Management Institute. I graduated from MIT with a bachelor's degree in environmental engineering in 2009 and then accepted a position as an Environmental Project Manager at Chevron, located at the corporate headquarters in San Ramon, California. While at Chevron, I managed groundwater remediation projects in conjunction with state regulatory agencies, third party stakeholders, and environmental contractors. I graduated from The University of Texas at Austin in 2014 with a master's degree in environmental and water resources engineering. I am a certified Class I Wastewater Treatment Operator, Class I Drinking Water Treatment Operator, and achieved my hazardous materials manager certification (CHMM) in 2019. Outside of Wharf, I am a board member for Northern Hills Junior Achievement and an Educational Counselor for MIT. I was a Building Futures Mentor in conjunction with the Oakland YMCA while living in California. My regulatory and natural resources background, as well as my familiarity with SD DENR and SD GF&P, would be an asset to the Planning and Zoning Board. I enjoy problem solving and finding resolutions by interacting with a wide range of community members. Living in the Black Hills motivates me to give my time back to the community by participating in local government and impacting change. A position on the Planning and Zoning Board would provide this opportunity.

Thanks!  
Amy
