Dear Sir

I am writing to inform you of my experience with the Library and Library Personal in the city of Lead.

I was recently on a vacation trip to the black hills and found that I was in need of a place that was quiet, with a modicum of privacy, internet access, equipment to fax or make copies and a notary to witness signatures. I looked for those facilities at the Lead Public Library. The Library was smaller than I had anticipated but the librarians were supper helpful. They found a quiet corner for me to conduct my business, helped me to connect to the internet, and made copies of documents that I needed. I greatly appreciated the help that they provided in such a kind and efficient manor. I would like to thank you and the City of Lead for maintaining a place where a harried traveler can find the help that they might need in a situation that otherwise could have been a hundred times more difficult.

Thank You Sincerely

Jack Longar

Mr. Longar-

Thank you for your input. I will share the same with the county commissioners.

Bruce
