Subject: Request for Supplement

Lawrence County Commission and Lawrence County Auditor,

I am writing on behalf of the Lawrence County Search and Rescue Squad to request a supplement for donations made to the squad. The first is a donation of \$500 from the Mickelson Trail Marathon organization for their assistance with handing out water to runners. That donation was deposited into the general fund earlier this year. The second donation is \$250 from Daniel and Linda Green. The Greens' have donated previously to the squad in appreciation for the assistance provided to Dan's brother during the 2013 blizzard.

As you know, S&R budgeted funds were used this year to repair problem drainage areas at the S&R building site. This was a budgeted project but due to construction cost overruns, the remaining squad budget is quite tight and this supplement of \$750.00 will help them finish out the year in better standing. The LC S&R Squad very much appreciates both donations and would like to thank them both publicly during this hearing before the LC Commissioners.

Sincerely,

Paul Thomson

Paul Thomson, Director
Lawrence County Emergency Manager
