Please print this email and add it to the Wichterma letters. Do not worry about the video as I have added it into their folder in the drive.

Hey Amber, hope all is well and thank you for taking the time to read my letter. Here's a quick video I took last summer. I have more videos from the years before also, but I thought this one would help show you our perspective of the dust problem. I love Leah and Jason and I love what they have done at there campgrounds. They are super wonderful neighbors and very hard working folks. I do hope they get approved for whatever they are wanting to do. I believe they deserve the rights to do as they chose. I grew up out here and fished in that lake with the old owners permission of course and loved every minute of it. Its beautiful country out here and the whole black hills is a beautiful area. Its been heartbreaking to have to watch the dust come across the road the way it has the past few years. It just keeps getting worse with more roads and more side by sides atvs and other off road vehicles. I hate to complain and don't like complaining at all. I just hope and pray that in light of it all that we can live with our doors open and windows down and not have to see, smell, and yes at times even taste it because my moms house and the shop both fill up with dust clouds. They paved around the gas station last summer and I prayed they would pave over by us and to help with the dust. I know knowbody probly knows this is even going on but we notice everyday because the wind blows our direction 95% of the time. Please just know that deep down we love the people and the area. We love our neighbors and neighborhood. Thanks again and have a wonderful day and weekend.
