RE: Maitland Partners – Paradise Acres #4 Subdivision Phase 2 Watermain Extension
P&S No. 22-073

Dear Mr. Schreier:

The Department of Agriculture and Natural Resources (DANR) received two copies of the plans for the Maitland Partners, Paradise Acres #4 Subdivision Phase 2 Watermain Extension project near Lead, South Dakota on March 14, 2022. The cover letter indicates that the specifications and all details to be used on this phase of the project are the same specifications and details used on phase 1 of this project that DANR approved on November 29, 2021. The department has reviewed and hereby approves the plans and prior specifications and details for this project. The following are conditions of approval to be addressed by the design engineer:

1. In accordance with the Administrative Rules of South Dakota (ARSD) § 74:53:04:08, the DANR shall be notified when works or systems or both constructed in accordance with approved plans and specifications are placed in service

This review is primarily to determine compliance with the minimum sanitary engineering requirements and does not cover items such as quality of material, structural soundness, or electrical and mechanical design features. Approval of the plans and specifications does not in any way release the applicant from the responsibility that the project will be an operable facility when construction is completed.

If you have any questions, please contact me at (605) 773-3754.

Sincerely,

Mark A. McIntire, P.E.
Natural Resources Engineer
Drinking Water Program
