December 19, 2022

Dear City, County, or Tribal Official:

Enclosed you will find a copy of a public notice recommending the renewal of four solid waste general permits. State law requires that our department notify every municipality, county, and tribal government in the state upon public notice of a proposed general permit. This notice is required regardless of whether you are authorized under a general permit or not. You are not obligated to respond.

The proposed general permits will be issued statewide, and are individually titled as follows:

1. **General Permit for Construction and Demolition (C&D) Debris Disposal Facilities**
  - C&D disposal facilities are allowed to bury construction/demolition debris, furniture, and similar inert waste materials. Trees, branches, and untreated wood can also be open burned at C&D disposal facilities.
2. **General Permit for Restricted Use Solid Waste Disposal Facilities**
  - Restricted use sites can bury and open burn the same wastes allowed at C&D disposal facilities. Restricted use sites are also allowed to compost yard waste and temporarily store scrap metal, white good appliances, and waste tires for recycling or disposal at off-site facilities.
3. **General Permit to Store and/or Land Apply Solid Waste**
  - The general permit to store and/or land apply solid waste is potentially applicable to any operator proposing to land apply solid waste material that has nutrient value for soil and vegetation.
4. **General Permit to Store and/or Land Apply Dairy Processing By-Products**
  - The general permit to store and/or land apply dairy processing by-products is potentially applicable to dairy processors that wish to dispose of whey, whey permeate, or waste milk by land application.

Please refer to the enclosed public notice for specific information about the proposed permits and the approval process. This recommended action is for the renewal of existing general permits. The proposed general permits do not contain significant changes to the location, design, operating, recordkeeping, and closure requirements already stated in the existing general permits.

Anyone operating a facility already authorized by one of these general permits will continue to operate under the existing general permit until the operator applies for and receives a new authorization.

If you would like to comment on any of the proposed general permits, please write us or contact Kalyndi Martin of the Waste Management Program at (605) 773-3153.

Sincerely,

Jim Wendte, P.E.  
Waste Management Program

Enclosure

**NOTICE OF REISSUANCE OF SOLID WASTE GENERAL PERMITS**  
**Recommendation by the SD Department of Agriculture and Natural Resources**

The South Dakota Department of Agriculture and Natural Resources (department) recommends to the Board of Minerals and Environment (board) that four different general permits be reissued statewide for four different types of solid waste facilities. Solid waste general permits are authorized by South Dakota Codified Law (SDCL) 34A-6-58 and the Administrative Rules of South Dakota (ARSD) Chapter 74:27:10. Owners or operators of solid waste facilities authorized under a general permit must comply with all of the terms and conditions of the applicable general permit. If the owner or operator does not comply with all of the terms and conditions of a general permit, the owner or operator is subject to civil penalties as described in SDCL 34A-6-1.31.

The four general permits recommended for reissuance and their individual titles are as follows:

1. General Permit for Construction and Demolition (C&D) Debris Disposal Facilities
2. General Permit for Restricted Use (RU) Solid Waste Disposal Facilities
3. General Permit to Store and/or Land Apply Solid Waste
4. General Permit to Store and/or Land Apply Dairy Processing By-Products

The proposed general permits are potentially applicable to any operator proposing to operate any of the four facilities described above. The proposed general permits contain procedures for obtaining coverage under the general permit, location requirements, design requirements, operational requirements, recordkeeping and reporting requirements, compliance requirements, closure requirements, and a financial assurance provision. Prior to obtaining coverage under a general permit, an applicant is required to: (1) publish a notice of intent to operate a solid waste facility in an official newspaper in the county in which the facility is located, and (2) submit a request for authorization to the department. The request for authorization is a detailed account of the site conditions and proposed methods of operation. The general permits outline siting and location restrictions. Minimum separation distances are stipulated for wetlands, surface water, dwellings, drinking water wells, aquifers, floodplains, and property boundaries. Design requirements include acreage limitations, surface water control, fire control, and access control. Operational requirements may include waste handling, waste separation, routine inspections, vector control, open burning requirements, composting requirements, and salvaging. Compliance requirements are stipulated and penalties for violations are outlined. The permits also contain general information and requirements, along with provisions for amendments, revocation, suspensions, and transfers.

In accordance with SDCL 34A-6-1.14, thirty days after the publication of this notice, the department's recommendation for approval shall become the final decision and the general permits will be issued by the department unless a person adversely affected or having an interest adversely affected by the department's recommendation for approval petitions the board for a contested case hearing. The petition must comply with the requirements of ARSD 74:09:01:01. If a petition for such a hearing is not filed within thirty days of this publication date, the general permits will be formally and finally issued at that time. The general permits will be valid until suspended, revoked, or modified by the board, as specified in SDCL 34A-6-58.

Copies of the proposed general permits are available from the department and may be obtained upon request from: Department of Agriculture and Natural Resources, Waste Management Program, 523 East Capitol Avenue, Pierre, South Dakota, 57501-3182, Attn.: Kalyndi Martin, telephone (605) 773-3153. Copies of the draft general permits will be available at <https://danr.sd.gov/Public/>.
