Lawrence County Planning & Zoning  
90 Sherman Street  
Deadwood, South Dakota 57732

Reference: Conditional use permits For GF Development & North Star  
Quarry & Gravel pit

Please note that Karen & I are opposed to a CUP for both proposals.

We do not understand the impact these proposals might have on our health and property but when doing research on environmental, hydraulic, and the economic effects of existing quarry and gravel pits, we get very concerned.

We chose our neighborhood because of what it had to offer and industrial mining was not part of it.

We agree this industry is needed and we hope there are other properties in this vast state not so close to population concentrations.

It is our sincere hope that Planning & zoning along with the County commissioners will also oppose these proposals.

Sincerely,

Robert Deis
