

May 8, 2019

Commissioner Randy Diebert
Lawrence County Commission
90 Sherman St.
Deadwood, SD 57732

Dear Randy,

Sanford Underground Research Facility is revving up for Neutrino Day 2019 and we'd love for you to be a part of it. Our free science festival is held Saturday, July 13 in locations all over Lead, South Dakota. It features fun hands-on activities, demonstrations, presentations by scientists, hoistroom tours, videoconferences and science exhibits.

Finally, our keynote presentation features astronomer and science communicator Jose Francisco Salgado, who teams up with the Black Hills Symphony Orchestra to bring to life "The Legend of the Northern Lights," which tells the story behind one culture's understanding on this magnificent phenomenon.

Neutrino Day is open to the public, so please bring your family, friends or team members for a full day of fun. For more information, go to our website, <https://www.sanfordlab.org/neutrinoday>, or contact Constance Walter at cwalter@sanfordlab.org or 605.722.4025.

We look forward to seeing you Saturday, July 13!

Sincerely,

A handwritten signature in black ink, appearing to read "Mike Headley", is written over a faint, larger version of the same signature.

Mike Headley
Executive Director
South Dakota Science and Technology Authority
